QST'S FROM LILY N6PGM....

The March 13 flea market was so successful in every way I don't know where to begin. We netted over \$4000.00. Many thanks to Andy VE3FZK for bringing a magic potion to shrink vehicles, most of which arrived before sunrise. Many of our new members helped the "old standbys" make this such a memorable day. We will honor all flea market workers at the Menlo Park Round Table Wednesday, April 21 at 6 PM. Thanks gang. You were all wonderful !

K6MPN/SK

It is with the most profound sorrow that I bring to you the news that Dusty Doster K6MPN has become a silent key. He leaves a void for most of us, and for PAARA, which can never be filled. We are all richer in so many ways for having known such a kindhearted, good humored, generous man. The accompanying picture was taken on February 20, 1993, two and a half weeks before his death.

Atomic bomb collaborator De Liban dies

STANFORD (AP) — Robert de Liban, an engineer on the Manhattan Project and a pioneer in developing automated guidance systems, died Sunday. He was 74.

He had worked at Berkeley's Radiation Laboratory with Dr. Ernest Lawrence, who won the Nobel Prize for inventing the cyclotron.

De Liban, who died at Stanford Hospital of complications following surgery, spent most of World War II at Oak Ridge, Tenn., working on the project that led to the atomic bomb, said his wife, Barbara.

"We all had mixed feelings about the enormity of the devastation," she said about the destruction the bomb brought. "But it did stop the war. That summed up what most of those involved felt."

De Liban, an electrical engineering graduate of UCLA, co-founded Barrett Electronics Corp. after the war. The company specialized in automated guidance systems for military and civilian enterprises.

He moved to Menlo Park in the 1950s and became president of the western division of the company which was sold in the 1980s.

In addition to his wife, survivors include two sons, Richard de Liban of San Francisco and Paul de Liban of Fremont, and his daughter-in-law, Helga de Liban of Fremont.
